## technical notes

Maximum operating temperature: 90 °C

Max. Betriebstemperatur: 90° C

Température maximum de fonctionnement: 90 °C

Temperatura máx de funcionamiento: 90 °C

Not available for single-pipe system

Für das Einrohrsystem nicht verfügbar

Non disponible pour installation mono-tube

No está disponible para instalación monotubo

For the thermal output/ weight of the wanted configuration sum the collector output/weight up to the output/weight of every single pipe chosen

Um die Wärmeleistung/das Gewicht der gewünschten Konfiguration zu erhalten, sind die Wärmeleistung/das Gewicht des Sammelrohrs zu der Wärmeleistung/dem Gewicht jedes gewählten Rohrs zu addieren

Pour calculer le rendement thermique/poids de la configuration désirée, additionner le rendement/poids du collecteur avec celui de chaque tube choisi

Para el rendimiento/peso de la configuración deseada, sumar la potencia/peso del colector con la de cada tubo elegido

# DELTACALOR

# Company profile

## Quality made in Italy

The company was founded in the mid-nineties with a traditional handicraft steel towel rail production. In 2002 the company was transformed into a real industrial reality, following the acquisition of an important group in view of the plumbing and heating sector led by CEO Giovanni Pastorino who decides to revive the company renewing its product range with new ranges of hydraulic, mixed and electrical steel towel warmers and radiators with exclusive technology and design. Deltacalor is strongly characterized by a 360° approach that incorporates technology, practicality and aesthetics. The constant Research and Development on materials, shapes, finishes and processes leads the company to the launch of major patented products, tangible evidence of real and concrete innovations.

Not only the heating elements, but also expression of an innate attitude in the search of the best way to provide comfort and well-being at the service of man. High functionality, energy saving, easy installation, high quality are, in fact, the advantages of a production able to meet and anticipate the needs of designers, architects, installers and end users.

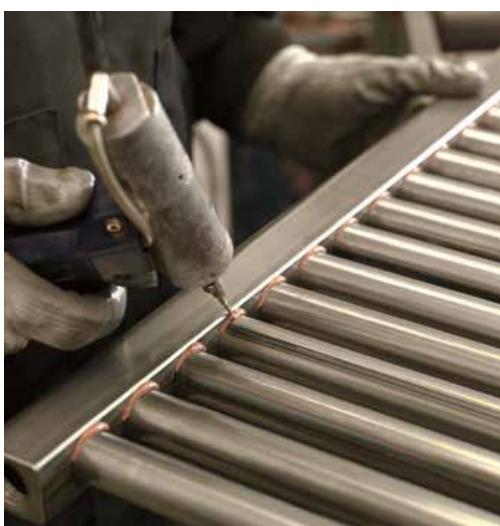

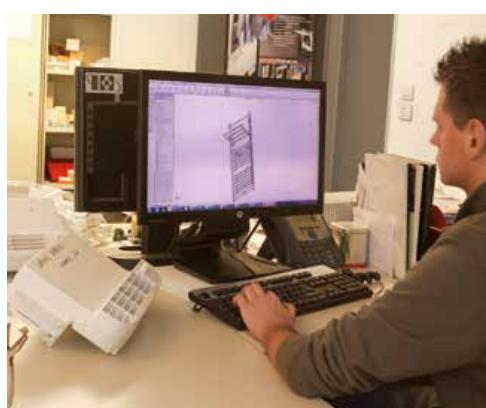

DELTACALOR

# Company profile

## Production takes place in Italy

Production takes place in Italy, in the state of the art plant of CalolzioCorte (LC), on a surface of approximately 10,000 sqm. We use the most innovative and advanced production methods: from welding to painting, to a well established quality control system based on the highest market standards. Production know-how is one of Deltacalor strengths: the company can produce a high number of parts using highly automated systems, but is also capable of meeting the different degrees of customisations that the market requires. All this, with the utmost attention to process control, ensured by a team of experienced professionals.

Deltacalor takes advantage of a young and dynamic workforce of 50 employees, capable of meeting all the needs of our customers, and ready to take on the challenges of the market. This is the winning combination of the company that always ensures precise and timely service.
