Applimo becomes intuis

Dear partners and customers,

The Muller Group and its professional brands, **Airelec, Applimo, Auer, Campa, France Energie, Muller Intuitiv** and **Noirot**, have become **Intuis**.

Intuis is your promise to **bring you more comfort with less energy**.

More than just a name change, it's a simplification that will enable us to work even harder to offer a coherent, comprehensive range of thermal comfort solutions, to help reduce our industry's carbon footprint, and to help our users save energy.

True to its DNA and aware of the urgent need for action on climate, energy and social issues in Europe and France, the Group continues to actively promote the Made in France concept.

For over 10 years, our range of products certified as Origine France Garantie has been growing steadily. Our range of electric radiators and towel rails is over 90 % certified.

This contributes to the development of jobs and local expertise, and has enabled us to recruit more than 200 new employees on permanent contracts in 2022, with the same projection for 2023.

Discover Intuis

Intuis is an industrial group based in France producing multi-energy-source thermal equipment, and most of its products are certified as Origine France Garantie.

With our electric radiators, heat pumps, thermodynamic water heaters and tertiary water loop solutions, we are present on the residential, industrial and tertiary markets, with specific expertise for each segment.

To deliver on our promise of "more comfort, less energy", we are constantly innovating to create products that offer some of the best levels of energy efficiency on the market.
